

## **BICYCLE PARTY**

Last 9 June, RACC took part in the Bicycle Party organised by the Barcelona City Council at Passeig Lluís Companys, which included around fifteen activities and a popular bicycle ride open to all citizens. RACC attended with the new "Punt Bici", which are bicycle repair points that will be set up along the metropolitan area of the city in the next few months.

This day, fully dedicated to bicycle riding, is organised by the Barcelona City Council with the aim of promoting a more sustainable and safe mobility in the city, as a response to the targets marked by the Urban Mobility Plan 2013-1018 (PMU) in order to promote walking and the use of the bicycle and public transport to move around the city.
