

### **CLOSING EVENT OF THE SAFETY EDUCATION COURSE "THE SPACE OF CHILDREN"**

On 25 May, the Safety Education Service organised the educational day "The Space of Children" at the Parc del Fòrum for the 18th time.

The event was aimed at all schools in Barcelona that are participating in the prevention programme "The Traffic Police at Schools".

Around 2,600 children took part in the leisure activities dealing with safe mobility, co-existence, risk prevention and environmental friendliness.

RACC offered the educational activities "Fijate bien" (Pay good attention) and "Juego de Cubos" (Cube Game), a jigsaw puzzle that simulates a situation of urban mobility, in which 4 groups of children have to try to finish the puzzle.
